## **Making an impact that matters.**

Our ambition is to do things that count every day. Our wide range of business activities – from Audit to Tax & Legal to Financial Advisory and Consulting – is a unique support for our customers. We set new standards, provide innovative approaches and facilitate sustainable growth. We support our highly qualified and talented employees, so that they achieve more with us.

# **Consultant/Venture Architect (m/f) Deloitte Digital Ventures (1445)**

Location: Munich

## **Exciting tasks are awaiting you:**

- Lead qualitative research and human-centered design activities (e.g. Design Thinking) to identify new business opportunities and communicate the generated insights to
- Combine your analytical, operational and creative skills to drive stakeholder buy-in for sound digital strategies, conceptualized digital operating models and roadmaps
- Take on interim management responsibility in a new venture while leading a 'train the trainer' approach to prepare the client for a sustainable transfer of the venture
- Turn concepts and strategies into reality for a successful go-to-market or scale-up of a new business, including leading the collaboration with external software architects, web designers and developers

## **What you bring to the table:**

- Record of 2 or more years of work experience with a management consulting firm, an innovation program (e.g. incubator or accelerator), and/or having built digitally driven concepts and/or businesses
- Fundamental knowledge of exponential technologies and technology-enabled business models as well as strong demonstrated interest in concepts, strategy and business building for the digital era
- Experience in managing projects under stringent time constraints while exhibiting a clear and structured mode of communication to manage up- and downwards
- Ability to professionally engage and build strong relationships with clients from interdisciplinary backgrounds
- Degree from a renowned university in strategy, marketing, design, psychology or another relevant field
